     Map data after object module synopsis:       1    00:00:00.30      00:00:00.43
     Symbol table output:                         0    00:00:00.07      00:00:00.54
Total run values:                               118    00:00:02.72      00:00:17.16

Using a working set limited to 600 pages and 77 pages of data storage (excluding image)

Total number object records read (both passes):  352
     of which 118 were in libraries and 2 were DEBUG data records containing 76 bytes

Number of modules extracted explicitly        = 1
     with 2 extracted to resolve undefined symbols

5 library searches were for symbols not in the library searched

A total of 4 global symbol table records was written
